

## Secure Legal eFiling and eService *the fastest way to file*

## CaseFileXpress

There is no faster way to file documents and serve opposing counsel. CaseFileXpress is a secure and legal electronic filing system. As Texas' premiere Electronic Filing Service Provider (EFSP), CaseFileXpress uses the power of the Internet to make filing more efficient and cost-effective than ever. For these reasons, CaseFileXpress is the EFSP of choice for the top law firms in Texas.

### CaseFileXpress

#### A Better Way to File: Anytime. Anywhere.

With 24 hour, 7 day a week customer service and support nothing else compares. CaseFileXpress guides you swiftly through the eFile and eService process online anytime, anywhere.

#### Experience Peace of Mind

CaseFileXpress software for eFiling and eService ensures reliability, security, convenience and efficiency. When you use CaseFileXpress to file your court documents, you receive immediate proof of delivery and online status tracking of your eFiling and eService documents.

#### Sanity is Just a Click Away

Our clients say CaseFileXpress is an easy to use, hassle-free way to get their documents to the courthouse and opposing counsel. With CaseFileXpress you can eFile and eServe your documents without ever leaving your desk. CaseFileXpress will increase your productivity and save your clients money.

#### Hassle Free Payment

No more calls to the clerk to calculate your court fee and no more check requests from accounting. With CaseFileXpress you enter your client matter number for each filing and we calculate the filing fees. You can use your own credit card or we offer monthly billing and detailed invoicing. It's online, it's easy, and it's secure.

## 360 Degrees of eFiling

### CaseFileXpress: How It Works

CaseFileXpress, known as an Electronic Filing Service Provider (EFSP), offers a web-based service that allows attorneys and legal assistants to file and serve their case pleadings, attachments, exhibits and other documents electronically to Texas county clerks and to their opposing counsel. A secure, dedicated system, CaseFileXpress interacts with TexasOnline, the Electronic Filing Manager (EFM), to provide legal professionals with a powerful new way to deliver court documents in a reliable, secure and timely manner. The process is as simple to use as 1-2-3. 1) Login to the CaseFileXpress website. 2) Fill in the interactive screens as we guide you through the

steps to eFile. 3) CFX interfaces with the EFM to serve your legal documents to the county clerks.

The Texas eFiling system was developed in 1999 by leading groups from the Texas legal community with one goal: to create a unified statewide electronic filing system with access to all 254 counties for any registered filer in the state. By serving as TexasOnline's first EFSP, CaseFileXpress provides users with a powerful office management tool, generating substantial savings, improving productivity, increasing bottom line profitability and allowing better control of your most valued commodity—time.

### How to Start: Sanity Is Just a Click Away
