In-House Recruiting

MMC's in-house recruiting services help you build and improve your internal HR teams. MMC can provide resources, processes, technology and best practices to ensure that the in-house recruiting team effectively delivers resources throughout the enterprise when and where they are needed.

Payrolling

MMC helps you gain flexibility and reduce costs by assuming full responsibility for payroll, benefits and workforce compliance. With resources deployed in over 40 states, we keep pace with the frequently changing laws and requirements at both the federal and state levels.

Independent Contractor (IC) Management

Independent contractors can represent a major financial risk to your organization if all federal and state compliance processes are not fulfilled and documented. MMC utilizes sophisticated classification analysis and management tools that exceed IRS requirements in order to reduce the risk and overhead associated with IC compliance at the local, state and federal level.
